

Discovery Investigations

(Discovery Investigations and National Institute of Oceanography (Late 1920s, some 1930s, 1940-1960))

	Director's office	
A1	National Institute of Oceanography: papers	1951-9
A2	Discovery Committee: winding up	1949
A3	National Institute of Oceanography: executive committee visiting sub-committee	1948-52
A4	National Institute of Oceanography: memorandum by Dr Mackintosh	Feb 1948
A5	National Institute of Oceanography Charter: a Royal Charter for creating the members of the National Oceanographic Council a Body Corporate, final draft of Charter. London Times 8.2.51 Press release about formation of NOC, and *scientific work of RRS <i>Discovery</i> and RRS <i>William Scoresby</i> and *press statement notes by Neil MacKintosh. National Oceanographic Council logo	1949-51
A6	National Institute of Oceanography: correspondence about committee meetings	1949-57
A7	National Institute of Oceanography: financial statements and estimates	1949-53
A8	National Institute of Oceanography: arrangements for transfer, 1949: future of Discovery Committee scientific staff when work is taken over by the National Institute of Oceanography	1949
A9	National Institute of Oceanography: annual report, 1949-50 plus some correspondence	1949-51
A10	National Institute of Oceanography: annual report, 1950-1	1950-2
A11	National Institute of Oceanography: correspondence with Admiralty and Colonial Office regarding the formation of the National Institute of Oceanography	1947-8
A12	Discovery Committee: minutes and correspondence	1945-8
A13	National Institute of Oceanography: Edgell Committee (Vice Admiral Sir John A. Edgell, K.B.E., C.B., F.R.S., Hydrographic Department, Admiralty)	1944
A14	Discovery Committee: pre-Second World War moves for extension of activities	1938-9
A15	National Institute of Oceanography: Abercrombie's meeting and Deacon's memorandum, 1948 (Mr N.J. Abercrombie, Head of M. branch and Dr G.E.R. Deacon, ORNSS)	1947-8
A16	National Institute of Oceanography: selecting location of the Institute	1948-51
A17	National Institute of Oceanography: National Oceanographic Council: list of members and agenda for first council meeting	Oct 1950-Dec 1952; Jul 1960
A18	National Institute of Oceanography store records: wartime evacuation of material: contents of cupboard at the Natural History Museum; Scott Polar Research Unit, Cambridge and Stratfield Saye, Reading, Berkshire	1943-6

A19	Discovery Committee: Science Sub-Committee's memorandum on future prospects	1940-44
A20	Discovery Committee: letters to the Secretary of State on future activities and other correspondence and reports	1944
	Dominions	
A21	Correspondence with George W. Rayner, Commonwealth Scientific and Industrial Research Organisation, Division of Fisheries, Marine Biological Laboratory, New South Wales, Australia	1947-54
A22	Discovery Committee co-operation with Dominions: Australia, New Zealand, South Africa and Canada	1937-49
A23	National Institute of Oceanography: co-operation with Dominions: New Zealand and Australia	1949-54
A24	Indexing systems: design of punch card, particularly for whale records	1956-62
A25	Minutes and correspondence: notes from an informal meetings and comments about the wide distribution of S.C. minutes sent to Dominions	Aug 1947 – Jan 1948
A26	Discovery Committee: correspondence about meetings, especially arrangements for meetings and agenda items	1937-49
A27	Correspondence about meetings	Jul 1949
A28	Discovery Committee: news bulletins	1933-7
A29	Discovery Committee: news bulletins	1930-2
A30	Discovery Committee: news bulletins and reports of business and progress to committee	1925-9
A31	British-Norwegian collaboration: correspondence with Professor Johan Hjort, F.R.S., Biologisk Laboratorium, Universitetet, Oslo	1925-30
A32	Scientific equipment sub-committee preliminary estimates and correspondence with Colonial Office	1925-36
A33	Discovery Committee personnel: notes about staff (particularly Colonial staff) including about retirement. Includes a photograph of the launch of RRS <i>Discovery II</i>	1937-60
A34	Information sent from the Royal Naval Scientific Service	1949
A35	Customs and Excise Office: examination of packages before exportation and about customs duties	c. 1924-47
A36	Petty cash: accounts and reimbursements	1941-8
A37	Statement of expenditure/disbursements for the Discovery Investigations, scientific	1937-9
A38	Collections: wartime evacuation: Stratfield Saye, Reading, Berkshire (The Duke of Wellington provided some wartime accommodation for the collections)	1939-45
A39	Collections: wartime evacuation: Scott Polar Research Unit, Cambridge: correspondence and lists of material	1939-45
A40	Inventories of equipment and furniture stored in various locations throughout the war	1939
A41	Staff: wartime arrangements, including staff assisting with the war effort	1939-40, 1947
A42	Stationary orders: mainly office and B.M. (British Museum?)	1932-49
A43	Office arrangements: furniture, social events, equipment, maintenance, pay arrangements, attendance books, telephone extensions and a floor plan of Queen Anne's Chambers	1930-56

A44	General arrangements for scientific work at home: Notes to the equipment subcommittee about accommodation at the Polar Research Unit, Cambridge and the Natural History Museum; Minutes of the equipment subcommittee on Dr Kemp's notes of the preparation and publication of the results of the Discovery expedition	1925
A45	Farewell function by Colonial Office to Discovery staff: cocktail party, 24 Mar 1949	Mar 1949
A46	Marine laboratories general: Course in fish population studies; Description of model used to demonstrate dynamics of exploited fish stocks	1945, 1956-7
A47	Festival of Britain, 1951: arrangements for the Dome of Discovery and work of the Zoological panel	1948-51
A48	Challenger Society for the Promotion of Oceanography: minutes, agendas, arrangements for events, copies of journal	1929, 1942-56
A49	Challenger Society for the Promotion of Oceanography: annual reports, agendas, notices, programmes	1950-72
A50	British National Committee for Geodesy and Geophysics and Physical Oceanography subcommittee: reports from the Royal Society and National Committee for Oceanic research	1954-60
A51	International Union of Geodesy and Geophysics, The Royal Society British National Committee for Geodesy and Geophysics and the Physical Sciences of the Ocean/the Oceanography subcommittee	1961-8
A52	Papers of the Antarctic: Royal Geographical Society subcommittee on Antarctic Nomenclature	1950-3
A53	The Royal Geographical Society and the Geographical Club including: Research and Expeditions Committee; The Joint Polar Subcommittee;	1928-58
A54	Royal Geographical Society: Council and Committees: Joint Polar Subcommittee, Finance Committee, Research and Expeditions Committee, Education Committee, Council Meetings	1945-53
A55	Royal Geographical Society: Research and Expeditions Committee: minutes and correspondence	1956-8
A56	Natural History Museum: papers and correspondence with staff including Dr H.W.Parker, Dr W.J.Rees, Dr H.E.Bargamnn, Sir Gavin de Beel and Dr A.B.Hastings	1927-58
A57	British Glaciological Society (the Association for the Study of Snow and Ice): list of members, arrangements for annual general meeting, accounts, minutes from meetings	1950-72
A58	British Glaciological Society (the Association for the Study of Snow and Ice): accounts, rules, correspondence, reports, list of members	1938-49
A59	Antarctic Club: list of members, reports, social events, correspondence	1947-57
A60	Records of biological work at the National Institute of Oceanography (NIO) and the Institute of Oceanography Southampton (IOS) with reports from 1949	1962-78

A61	Alphabetical index to the National Oceanographic Council (NOC) and Committee agendas and minutes, 1949-53; Plus: Draft memoranda of the work of <i>Discovery II</i> in the southern ocean and proposed treatment of data, Jan 1952; Memorandum on transfer of National Institute of Oceanography (NIO) to Witley, Godalming, Surrey, Jun 1951; The National Institute of Oceanography, Oct 1963; NIO: the early years of the Deacon laboratory, 1987	1949-53, 1987
A62	Development Commission: appointment of Mr F.S.O.Broughton to replace Mr E.H.E.Havelock as Secretary of the Development Commission	22 Sep 1955
A63	The Colonial Office and Admiralty: the Admiralty Social Service Association; Colonial Office change of address; publication of some articles in <i>Nature</i>	1944-7
A64	Government Scientific service and policy: Government Scientific Civil Service: printed material	1944-7
	Discovery Committee	
A65	Discovery Committee: questions of further commissions, 1934-7: papers and correspondence on the future of the Discovery Investigations	1934-7
A66	Discovery Committee: questions of further commissions, 1933: papers and correspondence on the future of the Discovery Investigations	1933
	Symposia	
A67	Symposia on the biology and productivity of the sea: Institute of Biology, 18-19 Sep 1953: papers and correspondence	1952-3
A68	The Zoological Society of London: symposium on marine zoology, 23-24 Mar 1966: printed programme and some handwritten notes	1955
A69	International Council for Exploration of the Sea Symposium on resources of the African Continental Shelf: a study of the living resources of the African Atlantic Continental Shelf, the stock of such resources and their fisheries between the Strait of Gibraltar and Cape Verde	1965-6
A70	Symposia including: Investigation and resources of the Caribbean sea and adjacent region, 18-26 Nov 1968; Marine Food Chains, 23-27 Jul 1968; Exploitation of Natural Animal Populations, 28-31 Mar 1960	1957-68
A71	Symposium on animal reproduction	1956-64
A72	Symposia including: International Oceanography Conference; Pacific Science Conference; International Conference on Topical Oceanography; Commonwealth Oceanographic Conference	1954-69

A73	Symposia including: Indian Ocean and adjacent seas: their origin, science and resources; The biological significance of climatic changes in Britain; Symposium on invertebrate receptors; Second international seaweed symposium; British Commonwealth Scientific Official Conference Committee on Oceanography and Fisheries	1946-70
	Antarctic Oceanography	
A74	Plankton and Antarctic convergence: Royal Society Symposium: Dr N.A.Mackintosh's handwritten notes	1963
A75	Symposium on Antarctic Oceanography, Santiago, 1966: printed conference papers, correspondence and Dr N.A.Mackintosh's handwritten notes	1966-7
A76	Symposia including: Sea-going fellowship study tour on fishery biology and oceanography; Abstracts for a symposium on Antarctic ecology and other papers regarding sea study	c. 1967-8
A77	Scientific Committee for Antarctic Research (SCAR) symposium on Antarctic ecology, Cambridge 28 Jul-3 Aug 1968: handwritten notes (from sessions?) and some bibliographic references	1967-8
A78	Scientific Committee for Antarctic Research (SCAR) symposium on Antarctic ecology, Cambridge 28 Jul-3 Aug 1968: correspondence after the meeting	1968-70
A79	Scientific Committee for Antarctic Research (SCAR) symposium on Antarctic ecology, Cambridge 28 Jul-3 Aug 1968: pre-conference arrangements, correspondence and programme	1968
	Krill	
A80	Typescript by R.J.Currie, 'Organic production in the sea'	n.d.
A81	Charts, various proofs: mainly Antarctic	n.d.
A82	Grid reference charts: Vaus and Crampton Ltd, plate engravers	1935-40
A83	Equipment: orders and requests	1955-68
A84	Provisional memorandum by Dr N.A.Mackintosh on the biological work of the National Institute of Oceanography (NIO) plus correspondence	1956-8
A85	Summary of results of Discovery Investigations and work of <i>Discovery II</i> and proposed treatment of data reports	1948-52
A86	Advice on American Antarctic prospects for 'Hero': the Office of Antarctic programs of the National Science Foundation request review and criticisms on a proposal received from Professor S.Z.El-Sayed. Comments of Dr N.A.Mackintosh and correspondence with Dr Llano, National Science Foundation, Washington	1968-72
A87	Comments on draft papers and Dr N.A.Mackintosh's correspondence	1964-66

A88	Food and Agriculture Organisation of the United Nations: correspondence with J.A.Gulland, Chief Fish Stock Evaluation Branch, Fishery Resources and Exploitation Division and handwritten notes	1967-9
A89	Food and Agriculture Organisation draft papers vetted: Area review of living resources, Antarctic; Draft chapter by Dr Hemper on the Antarctic in the area reviews on living resources of the world oceans, including correspondence with Gullard	1967
A90	Reports on the scientific work of RRS <i>William Scoresby</i> and biological work of RRS <i>Discovery</i> : Defects and alterations to RRS <i>William Scoresby</i> ; Ariel reconnaissance for whales: the Faroe-Shetland Channel and northwards to DWS MIKE; A visit to a whaling station at West Lock Farbert Harris, Outer Hebrides	1950-2
A91	Annual report, journal and correspondence of Dr N.A.Mackintosh	1959, 1963-73
	Expeditions	
A92	Norwegian-British-Swedish expedition to Queen Maud Land (Dronning Maud Land), 1948-9: minutes of meetings of the Joint Polar Research Committee and deciding the scientific programme of the expedition	1948-52
A93	Norwegian-British-Swedish expedition to Queen Maud Land (Dronning Maud Land), 1946-7: minutes of meetings from the Antarctic Research Committee and the Joint Polar Research Committee	1946-8
A94	Norwegian-British-Swedish expedition, 1952: minutes of meetings from the Joint Polar Executive Committee and regarding publication of material	1952-7
A95	Norwegian-British-Swedish expedition, 1950: minutes of meetings and papers from the Joint Polar Research Committee	1949-50
A96	Norwegian-British-Swedish expedition, 1951: papers of the Joint Polar Research Committee	1951-4
A97	'The voyage of <i>Jason</i> and <i>Hertha</i> into the Antarctic Ocean 1893-4 and the scientific results of these voyages', by Dr Johannes Peterson; with a map by L.Friedrichsen; translated by J.D.M.Blyth, Scott Polar Research Unit	Mar 1949
A98	Correspondence between Dr N.A.Mackintosh and A.G.Hamilton, offering to make observations on a sailing trip	2 and 7 May 1956
A99	Galathea Expedition and the Galanthea Report: scientific results of the Danish deep sea expedition around the world, 1950-2, carried out under the leadership of A.F.Brunn, R.Spärcka and S.B.V.J.Greve	1950-5
A100	Albatross expedition: Swedish deep sea expedition on <i>The Albatross</i>	1947-8
A101	Professor Piccard's experiment: bathyscaphe	1947-8
A102	Bratagg's expedition, 1947-8: results	1947-50

A103	French Antarctic expedition, 1948 including contact with RRS <i>Discovery II</i> and a conference with the French Polar Institute	1947-51
A104	Articles from <i>Nature</i> about the Carnegie expeditions	1928-4
A105	The German Antarctic Schwabenland Expedition, 1938-9: report and correspondence. The areas photographed was named New Schwabenland after the ship used in the expedition	1946
A106	Deutschen Atlantischen Metesurveying cruise in the South Atlantic, 1925-7: reports and correspondence	1925-35
A107	Gauss Expedition: report from the UK Scientific Research Organisation in Germany issued by the German Hydrographical Institute. A research cruise carried out by the study vessel Gauss	1952
A108	Antarctic Expeditions: correspondence, newspaper cuttings and journal articles	1942-7
A109	Expeditions: newspaper cuttings and journal articles	1929, 1936, 1947, 1949
	Institutions	
A110	United Kingdom contribution to the International Biological Programme: report	1967
A111	XVI International Congress of Zoology, Washington 20-27 Aug 1963: arrangement for	1963-5
A112	Food and agricultural organisation (FAO) of the United Nations: correspondence	1954-6, 1967
A113	International Hydrographic bureaus: notes	1937, 1948
A114	Congresses including the Pacific Science Congress of the Pacific Science Association, New Zealand, 1949: papers and correspondence	1948-9, 1960-1
A115	Pacific Science Congress and work of the Discovery Committee in the South Pacific Ocean, including correspondence with Wayland Vaughan	1930-9
A116	Sovereignty of the Continental Shelf: ICSU correspondence	1954-8
A117	General oceanography: enquiries	1954-8
A118	Faroe-Shetland Channel: correspondence: Incorporation of Natural History Museum collections with some parts of the Discovery collections; Draft memorandum on the work of RRS <i>Discovery II</i> in the southern ocean and proposed treatment of the data; Provisional memorandum on work to be done in England after the final commission of the <i>Discovery II</i> ; Notes on marine research in the Antarctic; Oceanographical research in the Antarctic	1937-8, 1952-8
A119	South Sandwich group of Islands	1927-37
A120	Visitors: Correspondence with the International Indian Ocean Expedition, 1959-65; The Institution of Professional Civil Servants; References and society membership; Dr N.A.Mackintosh's papers	1959-66
A121	General enquiries	1933-68
A12	Whales and whaling: an exhibition in London Zoo: arrangements	May 1955

A123	Atlantic weatherships: correspondence, papers and newspaper cuttings	1947-9
	Bottom cores	
A124	Study of bottom or deep-sea cores: treatment of material from RRS <i>Discovery II</i>	1951-65
A125	Bottom or deep-sea cores: plans and methods for sampling and analysis	c. 1948-1950
A126	H.F.P.Herdman (representative of Discovery staff) visit to <i>The Albatross</i> – Swedish deep-sea expedition	1948
A127	Bottom or deep-sea cores: 'A Swedish Deep Sea Expedition', by Hans Patterson 'Core Sampling at Great Depth', by Børje Kutenberg	1946-7
A128	Bottom or deep-sea cores: old cores: some correspondence with and regarding Mr Earland who asked for permission to examine cores of deep-sea deposits taken by <i>Discovery</i> , 1926-7	1928-48
A129	Geology and Geography: journal articles and typescript papers and some correspondence	1927-51
A130	The sea floor including Maganese nodules: correspondence and some printed material	1940s-50s
A131	Bottom deposits and faecal pellets: correspondence with Hilary B.Moore of the Marine Biological Station	1932
A132	Bottom deposits: correspondence with F.A.Bannister, assistant keeper Natural History Museum; correspondence about Mr Earland and work on crystals	1935-6
A133	Bottom deposits including W.Campbell Smith's (Natural History Museum) report 'The marine deposits of the Patagonian Continental Shelf'; petrography: samples from the Falkland Islands and mainland South America	1934-5
A134	Bottom deposits: the Patagonian Shelf and correspondence with L.Harrison Matthews	1932-3
A135	Bottom deposits: fossil forminifera: correspondence with Dr W.A.MacFadyn, Sedgwick Museum Cambridge	1928-33
A136	Bottom deposits: forminifera: correspondence with Mr A.Earland and E.Heron-Allen of the Natural History Museum	1928-36
A137	Bottom deposits: correspondence with Professor P.G.H.Boswell, Imperial College of Science and Technology: samples collected by the Discovery Committee's vessels in the Antarctic and other parts of the southern hemisphere	1928-38
A138	Discovery of the Antarctic Continent including W.H.Hobb's article and J.W.S.Marr's draft of a criticism	1939
	Surveys and soundings	
A139	Soundings: correspondence with hydrographics department and papers regarding recording, equipment, statistics and measurement	1924-64
A140	Bouvet Island: correspondence, photographs and notes	1931-3
A141	A reports of the coast of Antarctica between the Meridians of 0°10'E and 4°30'E by Lieutenant L.C.Hill and some correspondence about RRS <i>Discovery II</i>	1931-9
A142	Surveying Balleny Islands: reports, lists of sketches (sketches not	1936-48

	present)	
A143	South Orkneys Islands: report and correspondence	1932-3
A144	Reports of surveys: South Shetlands and Graham Land	1931-8
A145	Surveying South Georgia including Royal Bay and Grytviken: papers regarding Mr F.Goodman, motor mechanic	1928-32
A146	Meteorology	1927-51
A147	Atmospheric pollution: testing atmospheric dust	1925
A148	South African meteorology reports	1944-5
A149	South African meteorology reports	1943-4
A150	Proposals for an International Polar Year in the southern hemisphere	1943-6
A151	Geophysics: papers	1946-8
A152	Earthquake in ?Dependancies: proposed seismography: correspondence	1927-30
A153	Geology: printed papers	1930 and 1934
A154	Rock specimens, mainly West Antarctica: correspondence including with Dr G.W.Tyrrell, University of Glasgow	1931-43
A155	Rock specimens: Enderby areas: correspondence	Jan-Jul 1936
A156	Rock specimens: South Orkneys: correspondence especially with Professor C.E.Tilley, Department of Mineralogy and Petrology, University of Cambridge	1933-9
A157	Report by Captain C.A.Larsen on an exploring expedition round a part of South Georgia and to the Sandwich Island in 1908	c. 1908
A158	Tristan da Cunha Islands and the Tristan da Cunha Fund: reports and correspondence	1925-47
A159	South Orkney islands: correspondence and Mr J.W.S.Marr's reports	1933-5
A160	Seismic sounding recordings: correspondence	Jan-Apr 1951
A161	Surveying, general: correspondence and reports	1925-32
A162	Charts showing: South Shetland Islands, South Orkney Islands, Marin Darbel Islands and track chart for Captain's seventeenth reports for RRS <i>William Scoreby</i> . Marked as 'British Museum'	c. 1930-1
A163	Indian Ocean Expedition: papers and correspondence	1957-64
A164	Benguela current: treatment of data: correspondence and papers	1950-3
A165	Benguela current: article in <i>Nature</i> 'Breeding grounds of Pilchards off the coast of south-west Africa' following hydrological and plankton surveys in the Benguela Current Region	1951
A166	Benguela current: field work: data and correspondence	1949-50
A167	Peru or Humboldt current: correspondence and reports	1931-46
A168	Trawling survey: Falkland Islands and the Patagonia Continental Shelf: correspondence and Dr T.J.Hart's report	1943-56
A169	Societies and institutions, foreign: correspondence and papers	1934-62
A170	Institut Océanographique, Monaco: correspondence and printed material	1960-8
A171	American Museum of Natural History: correspondence	1948
A172	Correspondence including with Dr Gerhard Schott of the Deutsche Seewarte, Hamburg	1931-8
A173	Post-Second World War Germany: papers and correspondence including looting of scientific libraries and scientific reconstruction	1945-7
A174	International Union for Geodesy and Geophysics (IUGG): Physical	1957-71

	Oceanography Committee, including SCOR and Scientific Committee for Antarctic Research (SCAR): minutes	
A175	International Union for Geodesy and Geophysics (IUGG): Physical Oceanography Committee: reports, minutes and correspondence	1952-56
A176	International Union for Geodesy and Geophysics (IUGG): Physical Oceanography Subcommittee: papers and minutes	1933-4, 1939, 1947-50
A177	International Union for Geodesy and Geophysics (IUGG) meeting in Rome, 1954: minutes and reports	1953-5
A178	International Union for Geodesy and Geophysics (IUGG) meeting in Brussels, 1951: printed material and correspondence	1951-2
A179	International Mixed Commission on Oceanography, 1948: minutes	1948
A180	International Union for Geodesy and Geophysics (IUGG) Association of terrestrial magnetism and electricity, Oslo meetings 17-28 Aug 1948: reports	1948
A181	International Union for Geodesy and Geophysics (IUGG) International Association of Hydrology, General Assembly at Oslo, 19-28 Aug 1948: papers	Aug 1948
A182	International Union for Geodesy and Geophysics (IUGG) General Assembly, 1948: travel arrangements	1948
A183	International Union for Geodesy and Geophysics (IUGG) Oslo Conference, 1948: papers	1948
A184	International Council of Scientific Unions: printed articles and notes	1947
A185	Diatoms of Peru/Humboldt Current: preliminary analysis by Rayner	n.d.
A186	Notes on the depth distributions of Antarctic Phytoplankton organisms based on centrifuge results obtained during the third commission of RSS <i>Discovery II</i> (by Hart?)	n.d.
A187	Phytoplankton: papers and correspondence	1933-62
A188	Fresh water algae: correspondence with Dr F.G.Fritsch, Queen Mary College, University of London	Feb-Mar 1948
A189	Seaweed: kelp, alginates and macrocystis: papers and correspondence	1929, 1946-9, 1954
A190	Plankton: red water bloom	1934, 1943-7
A191	Plankton: diatom sizes: correspondence with Mr R.S.Wimpenny, Fisheries Laboratory, Lowestoft	1938-40
A192	Ice Diatoms: correspondence with and work of Dr T.J.Hart	1948
A193	Copepoda: correspondence and papers	1959
A194	Patchiness, streaks and slicks	n.d. c. 1953
A195	Plankton: methods and equipment	1937-48
A196	Plankton: general correspondence and papers	1928-59
A197	Plankton: protodydra and planktosphaera	n.d.
A198	Plankton: work by Professor A.C.Hardy, Department of Zoology and Oceanography, University College Hull	1931-3
A199	Cephalopoda: correspondence with and regarding Mr I.C.J.Galbraith, Natural History Museum and Dr Anna Bidder, Department of Zoology, Cambridge University	1955-68
A200	Cephalopoda: general papers	1951-62
A201	Invertebrates: correspondence	1931, 1943
A202	Gastropods: including correspondence with Dr Gunnar Thorson, Universitetets Zoologiske Museum	1947-53
A203	Various Crustacea: correspondence	1932-48
A204	Decapods: correspondence with Dr Robert Gurney	Feb 1949

A205	Crustacea: correspondence including with Professor Graham Cannon, Manchester University Department of Zoology and Miss H.G.Q.Rowett	1927-52
A206	Lithodes antarcticus: correspondence; T.John Hart's notes and diagrams	1936-49
A207	Copepoda: work of Mr Andrew Scott	1928-34
A208	Mysid Embryos: correspondence with Miss S.Manton	1928-9
A209	Chaetognatha: correspondence with Professor C.C.John, Agra College Department of Zoology	1933-8
A210	Caelenterates: correspondence	1932-54
A211	Plankton: including correspondence with and work of Professor A.C.Hardy, Department of Zoology and Oceanography and E.R.Gunther, Natural History Museum. Includes sketches and diagrams	1930-3
A212	Plankton: 24 hour stations: Professor Alister C.Hardy and Dr Cheng	1937-47
A213	Collections: presentations made to the British Museum	1930-54
A214	Station lists: notes and correspondence	1941
A215	Chemistry of plankton: including papers and correspondence with A.P.Orr, Marine Station, Buteshire and R.S.Wimpenny, Ministry of Agriculture and Fisheries, Lowesoft	1930-5
A216	Plankton, Euphausia superba: general correspondence	1930-51
A217	Medicine and physiology: notes	Dec 1950
A218	Biological: correspondence	1934-59
A219	Mammalia: general correspondence	1947-52
A220	Marine biology: including printed articles and maps of 'Carta de Pesca'	1934-57
A221	Discovery collections: minutes from meetings, correspondence and notes	1926-66
A222	Specialists: correspondence with and papers regarding	1957, 1960
A223	Correspondence with Marion Fontaine	1954-65
A224	Articles from <i>Nature</i> magazine	1930, 1942, 1946
A225	Physical Oceanography: notes, correspondence and printed articles from <i>Nature</i>	1933-48
A226	Chart showing magnetic variation swing by RSS <i>William Scoresby</i>	25 Feb 1950
A227	Waves and swell: articles from <i>Nature</i>	1924, 1946-7
A228	British water: symbolic charts	c. 1950-2
A229	Surface temperature at the Antarctic convergence: papers and charts	1936-7, 1945-8
A230	Regional oceanography: printed articles from <i>Nature</i>	1928-45
A231	Water samples: correspondence and data	1927-32
A232	Hydrology: correspondence	1932-53
A233	Oceanography nomenclature: papers and correspondence	1930-51
A234	Oceanography general: correspondence and papers	1925-46
A235	Surface data: reports from yacht <i>Jeanne Matilde</i>	Jul-Oct 1958
A236	Penguin embryos: including correspondence with C.W.Parsons, Glasgow University Department of Zoology	1929-32
A237	Penguins: correspondence and diagram	1931-3
A238	Oceanic birds: correspondence including with Brian Roberts, Scott Polar Research Unit and R.A.B.Ardley, Haifa, Palestine	1936-52
A239	Birds other than penguins: correspondence, reports of birds sighted	1928-58
A240	Fish: <i>Latimeria chalumnae</i> : correspondence, notes and printed articles	1939-53

A241	Fisheries: correspondence and printed articles	1936-51
A242	Deepsea fish bucket: including correspondence with Professor A.C.Hardy and diagrams. . With a leaflet – NIO (NERC) on the <i>Underwater acoustic command system</i> 1968 (Originally developed for releasing the anchors of submerged buoy systems, later adapted to open and close the collecting bucket of a deep-sea research net, allowing catches to be obtained from a single depth without contamination during lowering or recovery)	1937-58, 1968
A243	Fish: correspondence and papers about tuna	1925-61
A244	Ice: correspondence and printed articles	1928-60
A245	Local sea ice conditions: Ross Sea: diagram and recording for certain years between 1907-29	c.1948-9
A246	Local sea ice conditions: including South Georgia and Falkland Islands	c.1923-31
A247	Local sea ice conditions: South Shetlands and Graham Land: reports	1908-32
A248	M.C.Lester's pack ice report from RSS <i>William Scoresby</i>	1928-9
A249	Pack ice: reports and data	1930-7
A250	Icebergs: Antarctic ice and large bergs: correspondence, reports and data	1927-33
A251	Ice: reports and correspondence	1926-36
